Koi Health- Why do my koi look dull and lifeless?

Koi Carp · https://shirleyaquatics.co.uk/knowledge/koi-health-why-do-my-koi-look-dull-and-lifeless/

This could be due to a number of factors – poor water quality, lack of oxygen, parasites and poor nutrition. A food with a high level of stabilised Vitamin C will help build up the immune system and perk up your koi. Also, look for Vitamin E as this helps stress related problems. Soaking the pellets in orange juice will also help. Incorrect nutrition will result in unhealthy koi, regardless of how good the water quality is.
